LOCATIONS & BACKGROUND

Delta Process Equipment (DPE) has been serving the Deep South for over 40 years with quality industrial and municipal fluid and gas applications. DPE also maintains fully capable repair and manufacturing facilities to serve as Authorized Service Centers (ASC) for most of the products we represent. Moreover, our primary service, repair and manufacturing locations are there to support you, our regional, national and international customers.

- Denham Springs, LA
- Ruston, LA
- Lafayette, LA
- Mobile, AL.

EXPERIENCE & SUPPORT

Delta Process Equipment has several factory trained personnel to assist with your needs. Their talents and education allow DPE to offer you professional services in the shop or in the field. The DPE shops are equipped with various, precision components to aid in your repairs, such as lathes, balancing machines, mills and electrical testing equipment. In field services consist of equipment troubleshooting, laser pump and equipment alignment, compressor evaluation and testing, and custom training on equipment and fundamentals.

CAPABILITIES

Delta strives to offer the best services to our customers. Some of our specialized capabilities are:

- Mechanical performance verification with vibration test
- Static seal test on all pumps
- Hydrostatic test capabilities
- Dynamic balancing of rotating components
- Machining including turning, boring, and facing
- 24-hour on call

AUTHORIZED SERVICE CENTER (ASC)

Delta Process Equipment is a premier Authorized Service Center. In fact, DPE is recognized as one of the top Sundyne authorized service centers in the world through a United Technologies initiative called ChannelOne. This program guides its channel partners towards excellence by addressing several facets of the business. For instance, Sundyne evaluates safety, repair shop organization, standardization and training. In addition, they gauge efforts to ensure effective customer service, and they review technical support and product application. This translates to all other sections of our business, and the benefits help to enforce our primary goals of Safety, Quality, Dependability, Availability and Expertise.

The following are vendors DPE represents for your service and application needs:

■ Pumps

- Sundyne
 - Sealless
 - High Pressure non-API
 - Heavy duty API and multi-stage

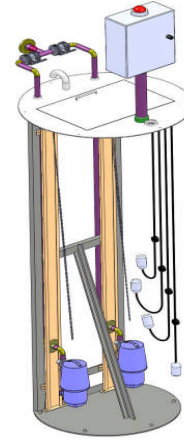

- Fybroc
- Dean
- Gorman-Rupp
- Barnes

■ Compressors

- Sundyne
- FS Elliott

■ Blowers & Vacuum (PD and centrifugal)

- National Turbine

Delta Process Equipment is an Original Equipment Manufacturer (OEM), and possesses the means to address your toughest needs. The following are additional DPE equipment items and capabilities:

1. OEM of extended aeration waste water treatment plants
2. Lift Station Retro-fits
3. OEM Parts and an Extensive Inventory
4. Custom Pump & Equipment Packages
5. Valve Actuator Packages
6. Certified Welders
7. Field Service
8. Onsite Equipment Maintenance Support
9. Canned Motor Pump Repair
